**DECLARATION OF MARK WHITE IN  
 SUPPORT OF DEFENDANTS'  
 RESPONSE TO PLAINTIFFS'  
 ADMINISTRATIVE MOTION TO FILE  
 THEIR MOTION TO COMPEL AND  
 SUPPORTING DOCUMENTS UNDER  
 SEAL**

 Judge: Hon. Elizabeth D. Laporte

1 I, MARK WHITE, declare:

2 I am an individual over 18 years old. I am the Executive Chairman of TomorrowNow,  
3 Inc., one of the Defendants in this action. I make this declaration based on personal knowledge  
4 and, if called upon to do so, could testify competently thereto.

5 1. The document that TomorrowNow produced in this case and Bates labeled TN-  
6 OR00217199 through TN-OR00217201 is a two-part email string that I originated on March 22,  
7 2005 between myself and several TomorrowNow and SAP employees regarding the status of  
8 TomorrowNow's integration into SAP's global organization. The email describe issues arising  
9 from the integration of TomorrowNow into the SAP family of companies, including financial  
10 assistance, pricing strategies, global terms and conditions for customer participation in the Safe  
11 Passage Program, and the termination of a number of TomorrowNow employees. This email  
12 contains information regarding TomorrowNow's financial plans, business plans, compensation  
13 plans, confidential pricing information and other types of commercially sensitive information.  
14 The entire document is confidential and was always intended to be kept confidentially within  
15 SAP and TomorrowNow. For example, the top half of the email chain dated April 5, 2005  
16 contains very specific information regarding VSOE testing for financial reporting purposes.  
17 VSOE is vendor-specific objective evidence, a method for determining the individual value of  
18 each item within a contract in order to recognize partial revenue before the entire contract is  
19 fulfilled.

20 2. As the former COO and CFO of SAP America, Inc., I am familiar with SAP's  
21 integration strategies and financial reporting practices. The business issues raised and discussed  
22 in this email are descriptive not only of SAP's business model for integrating acquired companies  
23 with regards to Tomorrow Now, but also of SAP's integration and financial reporting strategies  
24 generally. As such, public revelation of the contents of this email would cause competitive injury  
25 to SAP and compromise its negotiation power with companies SAP has or may attempt to acquire  
26 in the future.
