Case No. 07-CV-1658 PJH

**DECLARATION OF
MARKUS GENG IN SUPPORT OF
DEFENDANTS' RESPONSE TO
PLAINTIFFS' MOTION TO COMPEL
PRODUCTION OF CLAWED BACK
DOCUMENTS**

Date: N/A

Courtroom: E, 15th Floor
Judge: Hon. Elizabeth D. Laporte

1 I, MARKUS GENG, declare:

2 I am the Head of Operations, Global Governance, Risk & Compliance of SAP AG, one of
3 the Defendants in this case. I make this declaration based on personal knowledge and, if called
4 upon to do so, could testify competently thereto.

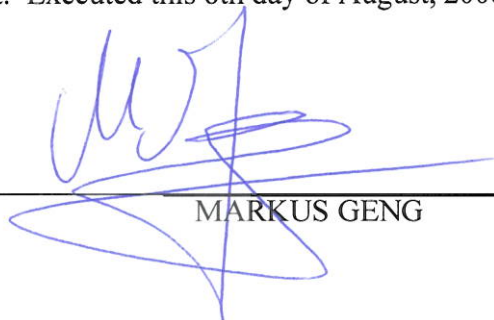

5 1. In or around February 2007, I assisted Thomas Ziemen with drafting the document
6 that has been produced by TomorrowNow, Inc. in this case and Bates labeled TN-OR00164402
7 through TN-OR00164410. It was designed as a presentation to SAP's management providing the
8 business case for Tomorrow Now's and SAP's future business plans relating to Oracle's
9 eBusiness Suite products and seeking management's business advice and direction on those plans.
10 This presentation was intended to be a highly confidential, non-public internal SAP document
11 relating to certain of TomorrowNow's and SAP's future business plans and competitive
12 strategies. Because of the management-level strategic considerations contained in the document,
13 the disclosure of this presentation to Oracle without the "Highly Confidential" protections
14 provided by the Agreed Protective Order in this case could likely cause competitive and business
15 injury to TomorrowNow and SAP.

16 2. The bottom portion of page TN-OR00164404 of the presentation contains a
17 section called "Risk Status". The information included in the "Summary of key risks" portion of
18 that section is a high-level summary containing conclusions I drafted based on legal advice I
19 sought and obtained from SAP's in-house attorneys Chris Faye and Jochen Scholten relating to
20 the key legal risks of the proposed business strategy reflected elsewhere in the presentation. I
21 believe that the fact that the "Summary of key risks" and referenced risk analysis involved legal
22 advice from SAP's attorneys is self-evident in the presentation itself because I noted in the
23 "Overall Risk Status" portion of that section that the more detailed results of the legal analysis
24 could be made available under "Attorney Client Privilege." And, the fact that the "Summary of
25 key risks" portion of the "Risk Status" section contains only legal considerations is highlighted by
26 the fact that I footnoted on that same page that the in depth technical examination was
27 outstanding, therefore the technical risk assessment had not yet been performed.
