## **SAP Statement on Motion Filing in Oracle v. SAP**

*NEWTOWN SQUARE, Pa. — October 15, 2008* — Today SAP filed a motion to dismiss some claims in the third amended complaint Oracle filed on October 8, 2008.

The motion argues that many of the claims Oracle asserts do not meet legal requirements applicable in U.S. Courts. Oracle has sought to make this case as large and complex as possible by expanding its claims beyond what the law allows. SAP brought this motion to assure that the case focuses on the issues that are legally relevant and truly in dispute. This case should be brought to an appropriate resolution without undue delay.

SAP will work with Oracle's counsel to determine a briefing schedule for this motion, and expects that the Court will schedule a hearing as well.

Documents filed with the motion were filed under seal because they include references to documents that Oracle considers confidential.
